Wayne,I know this is not a standard Pi Speakers post but...I am building a bass guitar cabinet with an old Altec 418B 15" woofer. Would the piezo tweeter you use on the one and two pi's be useful on a musical instrument speaker? Or do drivers for home listening have very different requirements?Thanks,Brian

I'm not sure that I'd put a tweeter in a bass guitar speaker. But if I did, I think I'd prefer the Eminence PSD2002 compression horn instead.

Subject: Thanks Wayne (nt)
