Hello,if you are talking about the Ebay-Nr. 800820979, then I agree. They are looking great.But, what's about the woofer? It seems to be mounted behind a little horn, like VOTT? What do you think? Do you know these boxes?Interesting.Best regards, Wolf

I don't know anything about these speakers... except the multi-cell horn looks gorgeous. I think the large horn just overlaps the top quarter of the woofer. Tom
