I have seen a good pair of powered subwoofers that I can use with my 2Pis. Can I place the Pis on top of the subs? Thanks.

the opposite - That's where I would expect them to work best because the sound sources are nearer to each other.

Thanks Wayne. I thought for a while that the vibrations coming from the subs will affect the 2Pis. How's your Paramour coming along? Edwin

I haven't even opened the box for my Paramours yet.  But I'm pretty sure that I'll be able to finish the Paramours very quickly once I start them.  They're a pretty simple circuit.

Hi Wayne,Please do some review with the 2Pis, Theater 4, and the Theater 7. I'm sure a lot of Paramour owners and would be Pi users, myself included, will be very interested.Best Reagrds,Edwin
