and you might want to make your reservation there for later, as we'll have the acoustic blues duo Biersdorf and Kolbe in the hotel for a reception earlier in the evening. On another note, Welborne Labs is going to be there with an Oris setup. MBB

As the man of the hour, you're gonna be busy 24/7. I don't envy you on that part - Lots of responsibilities and so many people wanting your attention. Count me in that list. I look forward to meeting you and Peggy very much, and Alona does too. I know you'll be busy, so as much as I'd like to have some private time with you two, we'll not ask for your undivided attention. But I would love to hang out with you, perhaps the whole gang will get together for a pizza or something. Those Kewpee burgers or the Bistro that you're talking about sound like a great plan!!! Just two more months - See you then!

Hey gang! I will be there with different setup than most of you, I don't need to bring my cloned Pi's since the real ones will be there. I am planning at this time to bring a University 312 coax installed in a (1968 PM magazine) Karson 12 cabinet driven by whatever I happen to find works best running them, at current time, that may be ASL Wave 8's, or some solid waste product I have laying around here. Throw a CD player on it to finish it off. I plan to sell that system at Lima because I want to take home some new/different toys. I plan to be at Lima sometime Friday morning and depart sometime Sunday. My girlfriend Sharon will be there for one day so she can cringe when I show her all the toys I want to bring back home with us! Her son and his girlfriend may come for the day also so he can talk about his Mom's "GEEKY" boyfriend" The kids just don't understand why I can't just have cute little mini speakers with sub in the corner like the regular folks have. I will love his facial expressions when he is surrounded by "My fellow GEEK friends"! Life is good sometimes!! Looking forward to the event and I want to see as much educational stuff as possible. I will have many questions for the experts, be ready. Cheers, Ron
