Wayne,I'd like to post my slides. How and where would you like them downloaded. The slides are presently in Power Point 2007 format, but that can be changed.Bob

E-Mail them and I'll put them on ART, with a link to the presentation right next to your audio file.

Bob and Wayne,Older versions of Powerpoint, the 2003 version I use with XP, cannot open the file. Could you save is as an earlier version or perhaps a pdf file?Martin

I send Wayne a collection of GIF files. That seems to be the only sure way to make them available. If I get a chance in the next day or two, I'll collect them into a PDF file. That should work also, but will take a while to put together.Bob

Can PowerPoint 2007 save in 2003 format? If it can, then if you send me the file I can write it out into pdf format. I have done that before and it works very well with my Acrobat writer.

Martin,I can do the PDF file myself. I just need to take a while to get it done. I'll do it tonight and send it to Wayne.Bob
