Wayne, Your comments on the 10pis with the paramourshave caught my attention. Could you send me the plans. Can these be used with their backs against a wall, or do they need to be out in the room? I have the space, but I'm curious about that, given the design environments for the 7s and 4s. thanks Skip Pack

If you'll send me your E-Mail address, I'd be happy to send you the plans. And - Yes - They work well against the wall, in fact, better that way.
