The Eminence PSD3003 has been discontinued but they have stated they are working on a new model as a replacement. I've got 8 ohm diaphragms in stock for the PSD3003's, for people who already own them. And I purchased the last of their 3003's (literally) so that I'd have product availability while they finish up their plans for a new design. So if you need 'em, I've got 'em.
