Hi Wayne!I'm still thinking about selling my 4648-8A cabinets. I'm thinking something more full range and much BIGGER! I've toyed with the idea of supplementing the bottom octave with dedicated subwoofers but I have a better idea....how about sending me those Audiophile Seven Pi 3-way plans? :) Hopefully my yahoo mail account can digest it! Thanks, Jerrod

Thanks Wayne!Everything arrived in good shape. These look fun! What do these end up to be, around 7 cu. ft., 30 hz.? Jerrod

That's right. The JBL 2245 works well in 7ft3 to 10ft3 cabinets tuned to 30Hz.
