By Roman Polanski. Sometimes I'll pick up those $5.50 movies at Wal-Mart, and about half the time, they're pretty good movies. But this one just didn't do it for me. I will have to say that it was better than "Captain Kronos: Vampire Hunter".

Blair Witch - Oh, yeah. Made me think I should get out the camcorder and start recording moss grow. Might have been more interesting.

haven;t seen it, but i believe the travolta flick on scientology was pretty bad. Many critics rated it the worst movie over the last fewe years, or some such rating. I believe gigli is pretty bad too.
