Good day...My son wants (me) to build him some new - and better - enclosures for his beautiful JBL D130 speakers. Posting on the "High Efficiency Speaker" forum, one of the responses suggested the Pi design as a great one for D130s. So, good people, here I am asking if someone would be willing to share plans with me.All the best,Rob PritchettHurst, Texas

Hi Rob!Send me your E-mail address, and I'll send you some plans. Which speakers are you

your D130's.Wayne
