Hi Wayne,Having gone completely "audio mad" I'm looking for my next challange. I want to design a cornerhorn suitable for Transcendent Sounds upcomming single ended OTL. (no plug intended) The Audiophile 7 Series, modded for 16 ohms, would be a great starting point. Please send the plans. I hope to get started before somebody finds a cure, or my wife finds out about it.(diabolical grin)Thanks,Steve
