Weather's cold, brought'm back to the living room for finishing, need to attach the bottom and top and put the brass strip in the inset area between, but It's been since June and I couldn't resist peeking:Goes ta show that few audio treasures are cooler looking than the Altec Sectorals. Looks a bit like a 1950 DuMont, n'est ce pas?Merry Pranks WebsiteCreating is more like performing than listening

That looks so cool! I can't wait to see them once you put the finishing on. What HF horn and comp driver are you using in there?
