Subject: 4pi or 7pi?

Wayne, can you please email me plans for both? I'm trying to decide between them and plan on building after the holidays.Which would you recommend for a 15x16x8' room? The room is a drywalled basement room with a very small window, single door in the back behind my listening position, carpeted concrete floor. The ceiling is also drywalled - it is not a drop ceiling. I'll be using both PP and SET tube amps.I'm currently leaning towards the Professional w/ Eminence HF but in your opinion do you think it's worth ponying up the extra $500 or so for JBL compression drivers or will the eminence HF drivers get me "95% of the way there"?Thanks,-jdarg

versatile since they don't need corners.
