I need the diameter of the baffle cutout for installing a JBL 2235 woofer. I can't find the vintage info on the JBL website. Has it been deleted? Thanks

Mounting information for JBL 22xx series 15" woofers

Overall diameter	388mm (15 17/64")
Bolt Circle Diameter	370mm (14 9/16")
Baffle Cutout Diameter	Front Mount
355mm (14")	Rear Mount
359mm (14 9/64")	Allow at least 76mm (3") clearance behind magnet assembly cooling vent for proper air circulation

<http://www.jblpro.com/pages/obsolete.htm><http://www.jblpro.com/pages/components/2235h.html> If you do a search on "vintage" it appears.
