Why the use of the Delta12LF, and not the regular Delta12?Other than the better low end punch, are there any other difference between the Theater 3 and the Thermionic 3? Any difference in the midrange?thanksGar.

I chose the Delta 12LF because it did more of what I wanted done in this particular spot in the model lineup. You get good bass response in a small package when using this woofer, where most of the other Eminence pressed-frame units need huge boxes.
