I have a JBL 2235H speaker that I would like to use as a sub woofer. Does anyone have any effective cabinet designs that they would not mind passing along? thank you Dave G

There are prints for a 15" woofer cabinet at the bottom of the page.

Hey thanks for the quick reply. I went to the JBL site before and missed that cabinet chart. Thanks again for the tip. Dave G

Wow what a beautiful cabinet! Thank you for sharing your complete plans. If it sounds half as good

as it looks it's a winner.Just what i was looking for. Thanks again Dave G
