I'm wondering how I can get a set of plans for the Pi 10s. Anyone know? My email is smccull@mindspring.com

Thanks Wayne.Let me tell you what I'm working on and maybe you can give me some suggestions. I'm breaking into front loaded horns with a pair of Oris 150's with Lowther DX3's. I'd like to run just a passive x-over for the high pass on the bass bins. In order to do this, what driver for the Pi 10's would you recommend? Any other mods I should think of?Steve
