I promise not to post any more pics until they're finished. I just couldn't wait for the new Alpha 10s to get here, I had to see what they were going to look like up against the wall. I'm ready to hear these guys. I need some wood tweeter horn plans where you don't need a milling machine....

Great looking speakers, I like that faux stone texture you put on the front baffle board, it makes it look like there's grill cloth with a big woofer behind it, rather than having just a piece of wood there. Nice job. Bill W.
