I had to be reading editorials in The Nation (great vover this week) to find out about this one. Also a check of the International MovieDatabase (IMDb) shows a couple more Alexander filmsas well. The Stone film promises to have Real Elephants Doing Real Elephant Things unlike ROTK. Angie is in that one too.But what is it about Colin Farrel or Brad Pitt in theseswords and sanddals pics that makes me want to vomit?It could've been worse: Like the duck says: Aflack! Oliver Stone's Alexander the Great with clever linkage
