Hi Wayne, If not too much trouble, you may send me the plans of the 8Pi. As I only have to buy a pair of Alpha 10's (and maybe some X-over components) i'd really like to try the 8Pi's. Thanks, Jim

Hi Wayne, Can you forward a copy of the plans to me. I took an hour last night and made a horn from 1/4" MDF. I attached it to my 2PI tower and was really impressed by the sound. I'd like to see if there's anyway I can fit one of these 8PI's in my basement. BTW, I do have a couple of 12mH coils at home, so it's quite possible that I might end up posting a review of this set up before Duncan. thanks, gcl.
