Wayne attended the Midwest Audio Fest back year before last. He was the one who brought the GREAT home brewed beer and spent time in the Parham suite. I have not been in contact with him for some time when he changed up jobs and I only had his work e-mail address. Anyone who has contact info with Wayne, tell him to e-mail me. He is a great guy and would like to re-establish contact with him. Wayne(Parham), if you have his contact info, forward my e-mail address to him please! Thanks, Ron

I do have his E-Mail address, and in fact we wrote last week. I'll drop him a line and mention you right now.

Wayne, Thanks a million! As you know also, he is a hell of a nice guy, so I appreciate the help. Regards, Ron PS: While not Pi stuff, I will post here with pics of my Edgarhorn system when I get the chance. At the current time, I have the pieces, but not all in sync as far as operational yet. Pi speakers got me started in horn systems that worked well which led to the Edgarhorn project.
