Can someone please run these figures for me (sorry but I can't get Pi align to work) and give cabinet volume and port size for a Pi seven cabinet using the BD designs BD15 driver. Fs 38.9Hz Qts 0.25 and Vas 258.2 litres.Cheers Jumpin

PiAlign recommends a 2.3ft3 chamber tuned to 58Hz using a rectangular port that's 4.75" x 8.45"
think the BD15 will sound very good in this cabinet.
