Hello. I've ordered the kits for use with Bottlehead Paramours (3.5 W/C) but then ran across this old post.http://db.audioasylum.com/cgi/m.mpl?forum=hug&n=9903&highlight=studio+Wayne+Parham&r=&session=Did I order the wrong thing? Will I have no bass under 80/90 hz? That would be dismal. Wayne?
