Hi,I would like to use the Monacor DT-25N in the Studio 2Pi.What do you guys think of it  
?Thanks,Jim  
Monacor Tweeter

It looks like it would work very well to me. I'd probably try it first with a 4.7uF capacitor in series and a 30 ohm resistor across the tweeter. Leave the 0.5mH coil across the midwoofer. I'll bet that will work just fine.
