From: "A. & G. Reiswig" Subject: FS: pair JBL 2426J horns w. driversDate: Tue, 30 Nov 2004 18:14:50 GMTHi,I have a pair of these drivers, in fine shape, mounted to 2370A horns. Here are the specifics for the driver:"The 2426J features a removable flange to expose a 1 3/8"-18 snout for screw-on type horns.a.. Alternate 1 3/8"-18 screw mountinga.. 70 watts continuous program power handling when used above 800 Hza.. 100 watts continuous program power handling when used above 1.2 kHza.. 800 Hz to 20 kHz responsea.. 16 ohm (J) impedancea.. 110 dB sensitivity (1W/1m on 2370A horn)a.. 44 mm (1 3/4 in) pure titanium diaphragma.. Patented diamond pattern diaphragm suspensiona.. 44 mm (1 3/4 in) edgewound aluminum ribbon wire voice coila.. Copper-plated pole piece for reduced inductance and increased high-frequency outputa.. Net weight: 4.3 kg (9.5 lb)"Horns and parts of the driver were painted with (removable) latex for use in a church installation where they hung beneath the midrange enclosure. New price for the drivers alone is around $260. Make an offer before I put them on EvilBay.George ReiswigSong of the River Music
