Wayne,Thanks for the info and the great conversation. I just wish I could find others like myself in the Virginia Beach area that had the same interest in music and the DIY stereo. I will go with the 2pi towers with the soft dome tweeter since this will be my first speaker project. I need to start slow and then work up to the more advanced 7pi speakers. Please sent me an e-mail with the modified plans for the 2pi's. Best,Brad
