Finally bought the Verve SACD. What was I waitng for? Fabulous re-master to DSD of great old favorites recorded in 1956. "Can't We Be Friends", "Moonlight In Vermont", "Stars Fell On Alabama", etc.Back-ups aren't too shabby, either: Oscar Peterson, Herb Ellis, Ray Brown and Buddy Rich.

That sounds like an excellent disk. I think I'll track one down here. I've got some music spendin' money burning a hole in my pocket...
