Subject: Partially finished Pi 8's

Just wanted to share some pics of my cabinets. Still haven't finished the cabs for the tweeters, but hope to get to them soon. Still need to apply the PI emblems,too. I had a pair of Vandersteens before these and liked the look, so that was kind of the theme, here (a minimalist look ;). Wayne, I love the sound, especially with the crossover change you just sent out. It really opened up the midrange. Awesome dynamics and downright liquid. Thanks for a great design and a great forum, too. A very fine design.Jeff
My Pi 8's

Great pics that show a lot of detail. Helps "woodworking dummies" like me how it's done. Ron

Thanks Wayne. The camera I was using isn't so great. I hope to get some better detailed pictures once I'm all done.

Thanks for the comment Ron. Maybe I'll add some documentation to go with the pics once I'm done.
