HAS ANYONE USED A CABASSE 21M20 WOOFER? ITS LOW QTS SEEMS TO MARK IT FOR A SMALL BOX ALTHOUGH THE CABASSE GOELETTE 500 USES ABOUT A 0.95 CU. FT. BOX THAT I'VE CALCULATED. MAYBE ITS A MODIFED 21M20.

Looks like a midrange or maybe a wide range driver to me. Probably works best in horns or in cabinets from about 0.3ft3 to 1.5ft3 tuned to 65Hz.
