I just want to let everyone know what a great guy Wayne is. I was passing through on a longggg vacation trip and gave Wayne a call. He was gracious enough to invite me over to listen to the various speakers and amps that he had. Let me spend as much time as I wanted listening and giving me constructive hints and suggestions about both speakers and amps. I ended up getting a 2Pi tower kit due to the fact that they were some of the best speakers I've ever heard. Once again----thank you Wayne.

Thanks for stopping by, Shane. It was a pleasure to visit with you, and I hope we get a chance to do it again soon. Try to make it over for the Great Plains Audiofest next year if you can. It makes a great little mini-vacation.

I hope to see you there. Try Hotwire.com or Expedia.com or another one of those discount brokers and book well in advance, you'll probably be able to save a bunch on your airfare.

I'll definitely have to try and make it. Sounds like fun.
