OK, now it's time to get out your copies of "Bad Santa." The movie is terrible in a funny way. If you're feeling like a scrooge at any point during the holidays, this is your fix. Or if you're overly cheery and bubbly, you sense that you're making everyone sick with your sentimentality, then this will help you get out of that mood.

I loved this one! Saw it in the cinema last Sunday (we get some American movies later in Europe). But it's not for people who don't like 'language'!
