Hi Wayne Is there a Pi 10/ 12 folded that will give * smoothly * about 80 Hz (3/-16) – 500Hz? How are the folds done: straight/ reflectors/ curves?ThanksRichard

a smaller version, but I don't think it will provide useful output in the midrange. You might look at

The angle of reflection of each panel was towards the mouth, so it provided a lot of midrange output.
