Hello all,I'd like to add a sub to my 2PI Studio monitors w/o breaking the bank. I can get a JBL powered 12" factory refurb on Ebay for about $200 including shipping. But will that blend with the 2PI? I don't know. Anyone with a tried and true combo please post! Thanks in advance,Bill L.

I've sent plans for a sub that works nicely for what you're doing.
