The Audiophile series sounds cleaner, and I think a little more powerful sounding too.

Hy..Wayne thanks for your answer ,but I have some doubts you say that the 7 pi audiophile sound more powerfull and I see that the magnum rules but regarding the mid and tweeter section is the same in both systems .does the crossover Wayne count for the difference in sound in from the midhorn and tweeter. once again thanks

and its electro-mechanical parameters make it hit harder on the low notes in a relatively small box.

speaker is a little larger and the woofer does not have a shorting ring.
