post with insurance and the rates are pretty good. It takes 6-8 weeks to get there that way, but the price is right. If you need it faster, we can use an air carrier, but it is expensive.The standard

cap and a Jantzen coil. The upgrade kit has just a tweeter, cap and resistor and is used to upgrade older models that had a KSN1038 tweeter. It isn't required when purchasing a new kit.

We'd be happy to sell you just the Vifa upgrade kits, yes.
