Hey Wayne, are you taking some 7pi's to GPAF? I'd really like to hear a pair. I know a hotel room isn't optimal for corner horns, but will still give me a feel for them, and let my wife see them. WAF is pretty important with these, as they'll be in a prominent place in the house, and require some rearranging . I have always auditioned everything in the past, except a deathbox i built, , Bill's stuff . So I'm batting 500. These are pricey enough (with my budget) I need WAF.
