B&C is Italian made. I haven't tried 18Sound or Beyma. I understand both are good companies, but haven't done much with either of them. I used a Beyma 2405 copy in one of my designs and it sounded great. But that's the extent of my experience with Beyma.

I was asked to design a speaker, and the Beyma tweeter was already in the mix. So I measured it and set the crossover up accordingly.
