I am cleaning out my garage and I have my first generation (theater) 4 pi boxes that I will give to anyone who picks them up. They weigh a ton, so shipping is not feasible. Drivers are not included, just the boxes. Made out of MDF, braced inside. Ugly. Need to be veneered (they have wallpaper on them now). They sound great and are built for the ages. If you don't want to invest time in building boxes, these may interest you. If interested, shoot me an email at jrt (at) avalon.net.

I forgot- it'd be nice if you knew where they were- Iowa City, IA 52245. Did I mention the price?
