Hi Wayne, and all the other guys.Check this... It's really old-school, and new for many of us.(Take an afternoon on a rainy weekend to check and appreciate all the videos.) There is a lot off talk() that we can not see what we would like, in the sound tech business, but nobody is stopping us of improving (every day) and looking further, even when somebody did that work for us, literally. Great stuff. If you don't mind I would like to share IT with everybody. Keep inspired...

I didn't really have time to watch it yet, but on a quick glance it appears to be some kind of holistic thing. What's it all about?
