HiBuilding my first Bottlehead kit and looking for some high efficiency speakers to mate with it.Was looking at Cain and Cain, then Cornwalls, but am now intrigued by Wayne's offerings.Considering Theatre 4, or the Professional 7 kit using the 4 box as a bass bin instead of the corner cabinet specified in the 7.Looking for anyone in the GTA or Niagara peninnsula who has Pi speakers and would be interested in discussing their characteristics, and if possible, to arrange to hear them.Thanks,Mark

I'm in Guelph and have the Theater 4 Pi along with a Foreplay II (not the latest version) and Paramours. I just finished a Seduction phono pre and have started to aquire some vinyl. My turntable leaves a lot to be desired (& so does my CD player) but it keeps me happy and out of trouble.Drop me a line if you ever travel outside of hogtown & perhaps we can set something up.CheersFrank Menafmenaster at gmail dot comP.S. I've modified the 4 pi crossover by substituting GE motor run caps & Auricaps. Definitely a step up im my opinion....

I am in Oakville. I just recently finished my 4 Pi Stage with the horn placed outside the box. I also have a 2Pi Tower. My 4 Pi is connected to a pair of Dynaco MarkIII.Do a search for my name in the forum and you should be able to see pics of my speakers.... Email me if you like to audition.
